

# PVC Flex-Tend®

PVC Flexible Expansion Joint for Sewer/Wastewater and Drainage

Sizes 4"-8"

The PVC Flex-Tend is designed to protect drain lines from differential movement such as twisting, deflection, or displacement during earthquakes or ground subsidence.

Size	Deflection Q	4" Offset			8" Offset			Max OD
		H	L	D	H	L	D	
4	15°	0.47	32.28 (+5.71, -2.16)	4.50	0.47	44.09 (+5.71, -2.16)	4.50	5.94
6	15°	0.84	41.34 (+5.71, -2.16)	6.63*	0.84	49.21 (+5.71, -2.16)	6.63	9.01
8	15°	0.96	45.28 (+4.13, -1.77)	8.63*	0.96	51.18 (+4.13, -1.77)	8.63	11.14

All dimensions are in inches.

Outlet ODs are compatible with ASTM D1785/D2665, and F891 PVC pipe.

- Material: PVC
- For use in DWV, gravity flow, non-pressurized systems.
- Adaptors are available to transition to transition to ASTM D3034 pipe diameters. Check with your local supplier.
- It is important to restrain the piping connected to the PVC Flex-Tend so that movement of the piping can be transferred to PVC Flex-Tend.
- Connections are to be solvent welded.
- Units are made in Japan.
